Documents cited in the International Search Report:

D1: DE 29920196 U1

D2: GB 2211079 A

D3: US 5878672 A

The cited documents represent after the amendment of the claims, only the general state of the art.

The invention as defined in the amendment claims 1-2 is not disclosed by any of these documents.

The cited document does not give any indication that would lead a person skilled in the art to the claimed rucksack/bag for carrying during transport. The rucksack/bag have at least one detachable plane transparent work surface and the underside of the plane surface is joined to a soft deformable unit.

Therefore, the claimed invention is not obvious to a person skilled in the art.

Accordingly, the invention defined in claims 1-2 is novel and is considered to involve an inventive step. The invention is industrially applicable.
